

Resell the front desk. Keep the spread.

White-label missed-call recovery, review protection and a 24/7 receptionist — sold under your agency's name, run by us.

Your trades clients miss a third of their calls while they're working. You can't build the thing that catches them — **we did**. Sell it, mark it up, and hand us the intake. We do the rest.

WHOLESALE PRICING

Product	What the client gets	Wholesale	Suggested retail	Your margin
Missed-Call Text-Back	Caller hangs up → text from the business in seconds · smart voicemail with transcripts · replies to the owner's phone	\$79/mo	\$149/mo	\$70/mo
Capture Bundle	Text-Back + review protection: happy customers get the Google link, unhappy ones are flagged to the owner first	\$130/mo	\$250/mo	\$120/mo
Reception	24/7 front desk: answers every call, takes details, books the estimate, texts the owner a summary, transfers urgent calls. Replaces text-back (nothing goes unanswered); review requests + lead response included	\$249/mo	\$399/mo	\$150/mo

Every tier includes estimate follow-up texts and the monthly report with your logo. Month to month, no minimums. Every tenth active line is free.

HOW IT WORKS

- **You sell it** — your brand, your price, your relationship.
- **Send the intake** — business name, owner cell, area code, review link. Two minutes.
- **Live the same day** — local number, scripted in the client's name, tested, forwarding codes handed over.
- **Monthly report, your logo** — calls missed, recovered, estimates booked, reviews earned.

What's ours to carry: numbers, carriers, delivery, outages, Google's review rules, and the 2am text that didn't send. If it breaks, we fix it — you never have to explain it. Texts always go out in the client's business name; "Powered by Cavora" sits in the report footer and drops off once you're past five clients.
